

Apple Financial Services Commercial Credit maximizes your business performance, giving you the freedom to buy what you need today.

■ Fit it into Your Budget

Helps you manage cash flow & overcome budget constraints. Purchase 2.5 times more equipment with this year's budget.

■ Improve Your Cash Flow

Leasing typically requires little or no cash upfront. Technology products are much more affordable – and the low monthly payments are easy to plan.

■ Package a Convenient Solution

Quickly enjoy the convenience of one-stop shopping. You can typically bundle in additional costs such as services, software, AppleCare and even equipment Apple does not sell.

■ Keep Pace with Technology

Avoid the risks associated with ownership. With leasing, you can easily upgrade or add new equipment as your technology needs change. Pay for the use of equipment over time as you are using it. And when you are done, there is no need to figure out how to discard old equipment – just return it.

■ Receive Tax Benefits

You can either take the tax benefits of ownership directly or capture the economic benefits as a lower monthly payment from Apple Financial Services Commercial Credit. You can choose the leasing product and structure that is right for you.

Even better news. The process is simple.

1. Submit an Application...Typically a same day decision is provided
2. Sign & Review a Simple Document Package.
3. Receive & Start using your new equipment!
