Mac Pro

The new Mac Pro is the fastest, most powerful Mac ever. Its new Intel Xeon processors increase performance up to 1.5x, and advanced graphics processors deliver high-performance graphics. It can even be configured with up to 12 processor cores. You can add up to 32GB of memory, four PCI Express expansion cards, and up to 8TB of hard drive storage. And the Mac Pro includes built-in Wi-Fi and the Magic Mouse. Ask an Apple Sales Professional about all the customized configurations available including processor, memory, hard drive, video, and RAID upgrades.
